VISIONARY LEADERSHIP GETS THINGS DONE! Vision gives hope to the people. Nehemiah was given a sorry report of the condition of the Jews who came back from exile (Ne 1:1-11). It broke his heart. But it also gave him a vision which brought hope and encouragement to his people. Today I want to share 7 keys to visionary leadership.

1. Visionary leaders seek direction from God through prayer.
2. Visionary leaders responds to God’s call.
3. Visionary leaders cares for the people and their situation.
4. Visionary leaders helps define the reality of the situation.
5. Visionary leaders keep the vision in front of the people.
6. Visionary leaders builds a team.
7. Visionary leaders are not discouraged by adversity.

Visionary leaders look ahead to what comes next. Nehemiah and the people built the wall in 52 days but that wasn’t the end of the vision. The vision was to call God’s peoples’ heart back to Him. Our leadership vision always needs to be looking ahead in order to keep people looking to Jesus. Jesus has a vision for you. Are you willing to follow Him?
